

INVITATION

2,5 DAY HANDS-ON URODYNAMICS COURSE

October 7-9, 2016

University of Malaya
Kuala Lumpur, Malaysia

COURSE INFO

2,5 DAY HANDS-ON URODYNAMICS COURSE

Laborie is proud to offer a practice-based course on Urodynamics and the use of urodynamic systems. This international training course includes hands-on practice with urodynamic systems, lectures and discussion and observation of patient examinations at the Urology DayCare.

Goal

To gain more knowledge of Urodynamic investigations and curve interpretation in order to improve the performance of examinations in daily practice. To become more acquainted with the Laborie and MMS measurement systems.

Course Highlights

- Common indications for performing urodynamics
- Basic principles and medical indications
- Application of urodynamics in clinical practice
- Good urodynamic practice (GUP) and pitfalls
- Typical urodynamic protocols
- Hands-on practice in using Goby / Solar Blue systems & catheters
- Hands-on practice in editing and report generation
- Analysis and curve interpretation of urodynamic patient cases
- Live demonstrations of urodynamic examinations (Aquarius XT) and Natural Filling ambulatory urodynamics (Luna)
